

DÜMMEN
ORANGE®

ANNUALS

Order plants online!

Webshop

Our direct ordering customers are invited to use our new Dümnen Orange webshop.

- Real-time availability
- Managing orders
- Buy rooted surplus online
- Importing orders via Excel
- Receiving online confirmations in minutes
- Substitutes based on an algorithm
- Online invoices

In today's fast-paced world, our webshop enhances your efficiency and convenience. You can check real time product availability, easily manage your orders and the webshop is available 24/7. Features like importing orders from Excel and adjusting quantities in existing orders simplify your experience.

A vibrant, colorful background featuring a wide rainbow arching across the sky. The sky is filled with numerous small, glowing stars and a soft, ethereal light. In the foreground, a dense cluster of various flowers, including purple, yellow, and pink blossoms, is visible. The overall scene is bright and cheerful.

Rainbow

CALIBRACHOA

This series is the newest lineup to the Dümmer Orange portfolio. These vigorous varieties have a unique characteristic that causes the bloom colour to change based on the temperature, light level, and day length when the bud is initiated, giving constantly changing tricolour effect on the plant.

Cupheasy

Cuphea hyssopifolia

NEW Cupheasy Lilac | 71091

NEW Cupheasy White | 71093

It's *easy*

- › easy to grow
- › improved plant growth
- › early flowering

A durable and heat tolerant landscape or container plant, cupheas produce an abundance of small, brightly coloured blooms on dark, glossy green leaves.

Crossandra

10 - 13 cm pot

Heat tolerant

Garden performance

Crossandra is a versatile plant grown as an annual, southern perennial, or flowering houseplant. Crossandra is loved for its constant display of vivid orange, glossy green foliage. It's an extremely durable summer performer built for sunbaked beds.

SUMMER BEES

FOR A LONG COLORFUL SUMMER

Pot 14 - 19 cm

Well branching

Flower size L

The ‘Summerbee’ dahlia series brings summer all along the line: a reliable crop with high sales potential, a product with high ornamental value and a rich source of food for bees and bumblebees from summer to autumn. The varieties have a vigorous and well-branched upright habit and many single flowers in bright orange and yellow.

Discover Intrinsa™ plants powered for a greener future.

Intrinsa™ brings advanced techniques through traditional breeding with the ambition of creating sustainable and economically viable plants for a greener future.

Connecting the world

Intrinsa allows for greater accessibility of plant material produced from more countries worldwide for a broader availability to your garden.

Transforming supply

Intrinsa advanced breeding techniques help make crops more reliable for greenhouse and nursery growers, ensuring a steady supply of your favorite blooms.

Making homes and gardens greener

Intrinsa technology identifies unique DNA patterns with natural disease resistance, reducing pesticide needs using these innate genetics.

Invest in the future

By investing in the Intrinsa™ brand

Stronger, healthier plants

By advanced breeding technology

True beauty comes from within

Plant power breeding by Intrinsa™

Look for the icon

Look for the icon throughout this catalog to identify worry-free varieties for a more sustainable and economically protected future.

Achten Sie auf das Symbol

Achten Sie im Katalog auf das Symbol, das die Sorten kennzeichnet, die Ihnen eine sorgenfreie, nachhaltige und wirtschaftlich sichere Zukunft bieten.

Zoek voor het icoon

Zoek in deze catalogus naar het Intrinsa-icoon en ontdek welke rassen geschikt zijn voor een duurzamere en economisch zekerdere toekomst.

DE Entdecken Sie Intrinsa™ - optimierte Pflanzen für eine grünere Zukunft.

Intrinsa verbindet modernste Techniken mit traditioneller Züchtung, um nachhaltige und wirtschaftlich interessante Pflanzen für eine grünere Zukunft zu entwickeln.

NL Ontdek Intrinsa™ - planten voor een groenere toekomst.

Intrinsa verbindt de modernste technieken met traditionele veredeling, met als doel het ontwikkelen van duurzame en economisch interessante gewassen voor een groenere toekomst.

FR Découvrez Intrinsa™ - des plantes optimisées pour un avenir plus vert.

Intrinsa apporte des techniques de pointe à l'hybridation traditionnelle, l'ambition est de créer des plantes durables et économiquement viables pour un avenir plus vert.

IT Alla scoperta di Intrinsa™ - piante potenziate per un futuro più verde.

Intrinsa porta tecniche d'avanguardia nell'ibridazione tradizionale; l'ambizione è quella di creare piante sostenibili ed economicamente valide per un futuro più verde.

ES Descubra Intrinsa™ - plantas potenciadas para un futuro más verde.

Intrinsa aplica técnicas avanzadas a la hibridación tradicional con el anhelo de crear plantas sostenibles y económicamente viables para un futuro más verde.

Dans ce catalogue, cherchez l'icône identifiant les variétés sans souci, pour un avenir plus durable et économiquement sûr.

Cercate l'icona

In tutto questo catalogo, cercate l'icona che identifica le varietà che vi offrono libertà dalle preoccupazioni, con un futuro più sostenibile ed economicamente tutelato.

Busque el icono

Busque en este catálogo el icono que identifica las variedades que le ofrecen olvidarse de las preocupaciones, para lograr un futuro más sostenible y económicamente viable.

Imagine a future... Where tobacco mosaic virus is a worry of the past

EN The Solution

Resistant plant sources are identified by inoculating breeding material with the virus and testing the level of resistance under controlled conditions favorable for TMV development. Resistant plants identified through this method are then used as starting material in the breeding process.

DE Die Lösung

Resistente Pflanzenquellen werden identifiziert, indem das Züchtungsmaterial mit dem Virus infiziert und der Grad der Resistenz unter kontrollierten, für die TMV Entwicklung günstigen Bedingungen getestet wird. Mit Hilfe dieser Methode können resistente Pflanzen erkannt und als Ausgangsmaterial für den Züchtungsprozess verwendet werden.

NL De oplossing

Resistentie in planten kan worden geïdentificeerd door plantmateriaal te inoculeren (inenten) met het virus en vervolgens het resistentieniveau te testen onder gecontroleerde omstandigheden die gunstig zijn voor de ontwikkeling van TMV. Met de resistente planten die op deze wijze zijn geïdentificeerd, wordt uiteindelijk verder veredeld.

FR La solution

Les sources végétales résistantes sont identifiées en inoculant le virus au matériel d'hybridation et en testant le niveau de résistance, dans des conditions contrôlées favorables au développement du TMV. Les plantes résistantes identifiées grâce à cette méthode

sont ensuite utilisées comme matériel de base pour le processus d'hybridation.

IT La soluzione

Le fonti vegetali resistenti vengono identificate inoculando con il virus il materiale per l'ibridazione e testando il livello di resistenza in condizioni controllate che favoriscono lo sviluppo del TMV. Le piante resistenti individuate con questo metodo sono poi utilizzate come materiale di partenza nel processo di ibridazione.

ES La solución

Las fuentes vegetales resistentes se descubren inoculando el virus en el material de hibridación y haciendo pruebas del nivel de resistencia en condiciones controladas que favorecen el desarrollo del TMV. Las plantas resistentes descubiertas con este método se utilizan luego como material de partida en el proceso de hibridación.

Verbena Series Overview

LINDOLENA

EPRESS® FLAIR

WICKED

EMPRESS® SUN

Packs 12 cm pot

Semi upright

Less PGR

The day-length neutral Lindolena impresses with its full range of colours. The bee-friendly verbena manages with little PGR because it has a good compact habit.
